

CYBERSECURITY BOOTCAMP (2 DAYS)

“ Earn a new identity as cyber guardian, learn ethical hacking with a certified industry expert, unlock your potential for rewarding cyber careers and upgrade to You 3.0! ”

FROM LEARNING TO EARNING IN CYBER WORLD (DAY 1)

🌟 Learn from a seasoned expert - mentored by a former Big4 Cyber Partner and current CEO of HK's first bug bounty platform. Get inspired and learn what it's like to work in this thrilling field.

🚀 Explore a rewarding career in Cybersecurity - Dive into the high-demand, high-reward field of cybersecurity in our summer bootcamp, perfect for those who are curious about technology and its impact on our world.

PRACTICE HACK & HEAL TECHNIQUES (DAY 1 & DAY 2)

🛡️ Become an Ethical Hacker - Play the role of a cyber guardian, protect digital assets by finding and fixing vulnerabilities in computer systems.

🛡️ Hands-on experience - Gain fundamental cybersecurity knowledge through interactive, hands-on labs. Master the OWASP Top 10 attacks and more healing tactics to protect your digital presence.

APPLY CYBER ENERGY IN THE REAL-WORLD (DAY 2)

🔌 Power-up your life skills - Discover how hacking principles can be applied to real-world situations. Develop trust-building and effective communication techniques that will benefit your relationships with friends, family, and future colleagues.

▶▶▶ PREREQUISITE

A functional laptop with Burp installed, no previous cybersecurity experience required.

Join Cybersecurity Bootcamp@2023. Ignite your passion and uncover your potentials to become a Cyber Guardian.
